Subject: Budget Allocation 23/24- Cliff Face River Rd between Greenwich Primary School & Lane Cove Golf Club

Dear Mr Wrightson & Councillors,

Almost all are aware of the dangerous narrow footpath at the foot of the rock face in the subject location, as it has been the subject of a number of letters written to Council over the last 3 years by The Greenwich Community Association & others.

We were advised last night at our bi-monthly meeting that the State Govt has again knocked back funding, presumably believing either that the footpath is not dangerous, or that rectification is a Council matter.

We all do know that the footpath is dangerous, & should any Councillors (or staff) believe otherwise, we urge them to walk the footpath at peak hour which will justify our concerns.

Therefore we believe the Council has no choice other than to include the works in 23/24 budgets which we understand will be discussed & agreed at Council's February Workshop.

Please consider this request seriously, as the matter will become of even more of concern when & if the proposed Sport & Recreation Centre is constructed, with the distinct likelihood of children moving from the school to the sports centre either on foot or on bikes.

We look forward to your response to this very serious safety concern.

Yours Sincerely

Peter Deane
