

Dear Community Member

NATURAL GRASS AT BOB CAMPBELL INC

As you are aware from our recent emails the above group has been formed as single purpose Association to fight for the preservation of natural grass at BCO.

It has established a "fighting fund", sought environmental and legal advice, secured expert technical advice as to improvement and maintenance of natural grass pitches and has put forward cogent arguments for a natural grass option at BCO. It has a web site and a growing membership base. [What can you do – Natural Grass at Bob Campbell Association \(naturalgrassbco.com\)](http://naturalgrassbco.com)

The group is as professional and passionate as the GCA about maintaining BCO for **all** community stakeholders

The President of NGABC - Martin Cunningham - is well supported by an active committee. Martin is a former player, referee and committee member of the Greenwich Sports Club and understands the interests of all parties. NGABC wants a better, well maintained natural grass playing surface at BCO so as to better serve the soccer community and all community needs.

To assist its campaign this week NGABC has requested access to the GCA's email list.

The GCA Committee has carefully considered this request and in view of the close alignment of the two Associations' objectives in respect of BCO we support this request.

However, privacy is important so we therefore ask that if you **DO NOT** want your email address released to NGABC to please email the GCA within the next **48 HOURS** as follows:

jsouthwood@spectrafin.com.au

If you have any questions please contact me. The GCA is continuing to fight the BCO cause more passionately than ever - we welcome as much support and engagement by the community as possible but recognise that NGABC provides scope for legal and other action that is outside the GCA's remit.

Kind regards

Merri Southwood

President
