Thank you for your email of 3 May referring to the Badangi State Heritage Listing Proposal.

The GCA supports the subject listing and as part of this, request that Council ensures that sufficient properly designed waste traps are installed to the drainage systems created for the new major buildings along the highway at St Leonards, and the development of St Leonards South, such that increased run off from these major developments cannot damage the precious environment within the proposed heritage listed areas.

Once again, we thank you for the opportunity to comment.

Yours Sincerely

Peter Deane
